

Open Source Promise

Wind River's Open Source Compliance program conforms with the Linux Foundation's OpenChain (www.OpenChainProject.org) ISO 5230:2020 compliance program standard. OpenChain Specification conformance ensures:

- ✓ An open source policy exists
- ✓ Relevant compliance roles and responsibilities are assigned
- ✓ Program staff are sufficiently trained
- ✓ Disclosure and tracking of Open Source software
- ✓ Review of the license and use case for each disclosure
- ✓ Delivery of the required Open Source compliance artifacts (e.g., source, notices, SBOM, ...) with each software solution

Open Source
Compliance | *more trusted and cost effective when built on Wind River platforms*
